

TRINETX RESEARCH™

# Analyze Data. Create Evidence. Take Action.

## Real-World Data

Access longitudinal clinical data.

## Highly Intuitive Analytics

Explore and compare cohorts, review cohort characteristics and compare outcomes of interest.

## Hands-On Data Science

License and download billions of up-to-date, de-identified clinical facts for analysis with your own analytic tools.

TriNetX Research™ is a suite of real-world data and analytics solutions for use in conducting observational and outcomes research. TriNetX Research combines longitudinal clinical data from its global health research network with powerful, state-of-the-art analytics on a single self-service platform, making it the fastest and easiest method for researchers to create real-world evidence (RWE) and enable discoveries.

TriNetX's global health research network consists of over 70 healthcare organizations, spanning 13 countries representing over 100 million patients. Through its cloud-based platform, TNX™, researchers analyze patient populations and perform observational studies in real-time through a user-friendly interface.

### TriNetX Research Enables

- Comparative effectiveness to identify treatments that have better outcomes for a given population
- Generation of value-based evidence to characterize drug efficacy and burden of illness to support payer coverage and patient reimbursements
- The ability to explore, assess, and download fully anonymized data from a select set of TriNetX Research healthcare organizations members and

optionally delivered in a format ready to load directly into an OMOP database

- Having TriNetX do the work directly; delivering custom reports and insights

## TriNetX Download™

Query, license, and download aggregated and harmonized real-world clinical data.

## Take Real-World Action on Real-World Evidence

In addition to TriNetX Research, the TNX platform powers TriNetX Live™, the industry-leading clinical trials optimization solution, enabling clinical researchers to design successful protocols, improve site selection and attain a path to the real patients across the global health research network. The unique combination of these solutions enables a researcher to progress from hypothesis, to evidence, to action in the shortest timeline possible.

## About TriNetX, Inc.

TriNetX is the global health research network that optimizes clinical research and enables discoveries through the creation of real-world evidence. TriNetX combines real-time access to longitudinal clinical data with state-of-the-art analytics to answer complex research questions at the speed of thought. For more information, visit [www.trinetx.com](http://www.trinetx.com) or follow @TriNetX on Twitter.

## TriNetX Analyze™

On-demand access to longitudinal clinical data and a set of highly intuitive analytics capabilities.
